Yes, let's do that. I'll send an invitation out for Tuesday afternoon.

**Subject:** RE: Weyerhaeuser Longview applicability determination

I'm not available this afternoon, but actually I would suggest the smaller call before we get the technical staff involved. We don't have a draft determination, just some initial thoughts after a quick review. I would like to pass those along and talk about next steps. Can we do that with just the 4 of us on Tuesday afternoon during one of the times that Garin's available?

Thanks,

Jeff

I'm open to having a smaller scale check-in on this today if Jeff, Garin, and Don are available. I just won't be able to get into any detailed technical/regulatory discussions without Katie who has spent a lot of time on this. Want to do something this afternoon to discuss next steps?

Looks like the party is getting bigger. Now, I really want to include my staff in this. Get back to you soon. Thanks.

All,

Tuesday afternoon works for me and it looks like it works for Garin (but Garin can confirm). I'll also invite Bob Burmark to join us for the discussion since he's the one who has reviewed the applicability analysis.

Jeff

I would like to add Katie McClintock to the meeting and she is not available today and I'm out tomorrow. How does the afternoon of Tuesday (Sept. 2) work for you and Garin? Don – would that work for you?

Scott and Don,

Ecology has completed an initial review of Weyerhaeuser Longview's December 2012 PSD applicability determination on the No. 11 Boiler Upgrade Project. Do you want to set-up another call for the 4 of us to discuss? Or some other way to move forward?

Cheers,

Jeff
